For Kid's World and the kitchens:

Silikal flooring in the Cendevaves ski hotel

The kitchens, Kid's World and the corridors of the "Cendevaves" ski hotel in Val Gardena/Italy have received new floorings. In future, sterling service will be provided by Silikal reactive resin systems: slip resistant, low maintenance and extremely hardwearing, they form

a firm and attractive foundation for the demands of everyday hotel life. During the refurbishment it was business as usual. Laid overnight, the flooring only takes a one to two hours to harden up and it is ready for normal wear and tear.

Skillfully applied by qualified installers and the new floor is fully cured and ready for action within two hours. A perfect way to keep your operation running wide open.

Certified Quality and Ecology
Management Systems
